

# Contents

<b>1. Some Windows basics .....</b>	<b>6</b>
Selecting from lists of items .....	6
Cut, Copy, & Paste .....	6
Resizing windows, Minimising, & Multiple Documents.....	6
Program file locations .....	7
Make Windows show filename extensions.....	9
<b>2. Installing TurboCAD &amp; Getting Started.....</b>	<b>10</b>
Display Control – Zoom & Pan .....	11
<b>3. Drawing with Precision using the Inspector &amp; Coordinates Panels .....</b>	<b>14</b>
The X,Y,Z Coordinate System.....	14
The Coordinates Panel.....	15
The Inspector Panel .....	15
<b>4. Drawing with Precision: Grid, Snaps &amp; Ortho.....</b>	<b>17</b>
Grid .....	17
Snaps .....	17
Running Snaps .....	17
Single snaps .....	18
ORTHO mode .....	19
<b>5. Selecting Objects .....</b>	<b>20</b>
<i>Caution:</i> 2D and 3D Selector modes .....	20
‘Open’ or ‘Closed’ Selection Window Modes.....	21
Picking objects that are close together .....	21
<b>6. Altering Existing Objects.....</b>	<b>22</b>
(1) Handle-Based Editing.....	22
Copying selected objects using Handles .....	23
(2) Editing using the Inspector Panel .....	23
(3) Editing using the Selection Info Palette .....	24
(4) Command based Editing     - using the Modify Menu & Edit Menu.....	25
Tools on the Edit Menu .....	25
Cut, Copy, Paste .....	25
Select, Edit Tool .....	25
Select All .....	25
Select By .....	25
Copy Entities tools.....	26
Copy Entities, Linear.....	26
Copy Entities,Radial.....	26
Copy Entities, Array.....	26
Copy Entities, Fit Linear, Fit Radial, Fit Array .....	26
Copy Entities, Mirror .....	26
Offset.....	26
Tools on the Modify Menu.....	27

Object Trim .....	27
Stretch .....	27
Split.....	27
Meet 2 Lines .....	27
Line Length .....	27
Shrink/Extend Line.....	28
Fillet .....	28
Chamfer .....	28
<b>7. Layers &amp; Properties.....</b>	<b>29</b>
Default Layer & Properties of Draw tools.....	29
By-Layer <i>versus</i> By-Object.....	30
Suggested method and setup.....	30
