

# Table of Contents

<b>1. Some Windows basics.....</b>	<b>6</b>	Caution: 2D and 3D Selector modes.....	37
Selecting from lists of items.....	6	'Open' or 'Closed' Selection Window Modes.....	38
Cut, Copy, & Paste.....	6	Picking objects that are close together.....	38
Resizing windows, Minimising, & Multiple Documents. . .	6	<b>7. Altering Existing Objects.....</b>	<b>40</b>
Program file locations.....	7	(1) Handle-Based Editing.....	40
Make Windows show filename extensions.....	8	Copying selected objects using Handles.....	41
<b>2. Getting Started.....</b>	<b>10</b>	(2) Editing using the Inspector Panel.....	41
Locations for storing various types of TurboCAD files.....	11	(3) Editing using the Selection Info Palette.....	42
Auto-Saved Data.....	13	(4) Command based Editing	
Opening & saving training drawing files.....	13	- using the Modify Menu & Edit Menu.....	43
How to add a Training shortcut to the FileOpen dialog.	14	Tools on the Edit Menu.....	43
Display Control – Zoom & Pan.....	15	Cut, Copy, Paste.....	43
<b>3. Drawing with Precision:</b>		Select, Edit Tool .....	43
<b>(a) Inspector &amp; Coordinates Panels.....</b>	<b>18</b>	Select All.....	43
The X,Y,Z Coordinate System.....	18	Select By.....	43
The Coordinates Panel.....	19	Copy Entities tools.....	44
The Inspector Panel.....	19	Copy Entities, Linear .....	44
<b>4. Drawing with Precision:</b>		Copy Entities,Radial .....	44
<b>(b) Grid, Snaps &amp; Ortho.....</b>	<b>21</b>	Copy Entities, Array .....	44
Grid.....	21	Copy Entities, Fit Linear, Fit Radial, Fit Array.....	44
Snaps.....	21	Copy Entities, Mirror .....	44
Running Snaps.....	21	Offset .....	44
Single snaps.....	22	Tools on the Modify Menu.....	45
ORTHO mode.....	23	Object Trim .....	45
<b>5. Basic Draw Tools.....</b>	<b>25</b>	Stretch.....	45
Line.....	25	Split.....	45
Regular Polygon .....	26	Meet 2 Lines.....	45
Irregular Polygon .....	26	Line Length.....	45
Parallel.....	26	Shrink/Extend Line.....	46
Tangent Arc Point.....	26	Fillet.....	46
Circle & Ellipse.....	28	Chamfer.....	46
Arc.....	29	<b>8. Layers &amp; Properties.....</b>	<b>47</b>
Curve.....	30	Default Layer & Properties of Draw tools.....	47
Spline, By Fit Points.....	30	By-Layer versus By-Object.....	48
Bezier.....	30	Suggested method and setup.....	48
Node Edit.....	31	<b>9. Model Space &amp; Paper Space.....</b>	<b>50</b>
Sketch.....	31	Model Space .....	50
Revision Cloud.....	31	Paper Space .....	50
Text.....	33	Setting up your Model Space workspace.....	50
Text (single-line text).....	33	Setting up a Paper Space Layout.....	51
Multi Text.....	34	Making a Sheet Border & Title Block.....	51
NOTE on Text heights.....	35	Including a Company Logo.....	51
Another Drawing Aid - GEO.....	35	Viewports.....	52
<b>6. Selecting existing Objects.....</b>	<b>37</b>		

Summary of Steps for placing Model data into a Layout Viewport.....	53
<b>10. Printing .....</b>	<b>54</b>
Printing from Model Space (Not recommended).....	54
Printing from a Paper Space Layout (The preferred way).....	55
Notes on Print Styles - (Not usually needed).....	57
<b>11. Dimensions.....</b>	<b>60</b>
Model-related Objects & Paper-related Objects.....	60
Scaling of Model Objects -v- Scaling of Paper Objects.....	60
Dimension Settings.....	61
Editing settings of individual dimensions.....	62
Types of Dimensions.....	62
Orthogonal .....	62
Parallel -v- Rotated.....	63
Leader .....	63
Dimension Styles.....	63
<b>12. Setting up your own Template.....</b>	<b>64</b>
Customising the A3 Template.....	65
Two Setup mechanisms.....	65
Space Units.....	66
Defining a set of Line Widths, Text Heights & Scale Factors.....	66
Layers and Layer-Properties.....	67
Default properties of drawing tools.....	68
Dimension formats.....	69
Text settings.....	70
Page Setup.....	71
Making the new template the default.....	72
<b>13. Hatching.....</b>	<b>73</b>
Hatching by Brush Property.....	73
Path Hatching.....	73
PickPoint Hatch.....	74
<b>Part B: LESS BASIC TOPICS.....</b>	<b>75</b>
<b>14. Groups, Blocks, Symbols, Palettes &amp; Libraries.....</b>	<b>75</b>
Groups.....	75
Blocks.....	75
Symbols.....	76
Palettes.....	76
Symbol Libraries supplied with TurboCAD (Deluxe & Pro) .....	77
Library Folders -versus- Library Files.....	78
The Library Palette.....	78
Creating a New Library Folder.....	79
Creating Symbols & adding them to a Library.....	80
Inserting Symbols.....	80
Deleting Symbols.....	80
<b>15. Styles (Pro) .....</b>	<b>82</b>
Basic System.....	82
Dimension Styles.....	82
Text Styles.....	85
Customising the list of Font Sizes.....	85
Other Style Types.....	86
<b>16. Tables.....</b>	<b>87</b>
Insert Table.....	87
Modify Table Tool.....	88
The Edit Tool.....	88
Adding and Deleting Rows and Columns.....	89
Table Styles.....	89
Summary & suggestions for use.....	89
<b>17. Double-line &amp; Multi-line tools.....</b>	<b>91</b>
Double-line.....	91
Multi-line.....	91
Walls.....	91
<b>18. Measuring.....</b>	<b>93</b>
<b>19. Custom Data (Pro) .....</b>	<b>94</b>
Step 1 – Define Custom Fields.....	94
Step 2 – Attach Custom properties to objects.....	94
Step 3 – Set up for a Report.....	95
Step 4 – Create a Report.....	95
Report Export options.....	95
Print Report.....	95
Place Report as a Table.....	95
Updating Object Data .....	95
Database Linkage system.....	95
<b>20. Block Attributes.....</b>	<b>96</b>
Defining Attributes.....	96
Entering attribute data when inserting blocks.....	97
Altering values in attributes.....	97
Collecting attribute data.....	97
Attributes -v- Custom Data.....	98
<b>21. External Reference Drawings (Pro) .....</b>	<b>99</b>
Inserting an external reference.....	99
<b>22. Raster Images.....</b>	<b>100</b>
Insert Picture.....	100
Image Manager.....	100
Clipping.....	100
<b>23. Using Scanned Drawings.....</b>	<b>101</b>
Scaling.....	101
De-Skewing.....	102
Tracing over the scan to make a CAD drawing.....	102
Converting scanned image data to CAD Data.....	102
<b>24. Importing Spreadsheet data .....</b>	<b>103</b>

<b>25. Exchanging data with AutoCAD users.....</b>	<b>105</b>	<b>Supplement 1:</b>	
Layers.....	105	<b>TurboCAD on Windows-7 &amp; Vista.....</b>	<b>108</b>
Colours to printed line widths.....	105	Windows system organisation.....	108
Plot/Print Styles.....	105	Storage of work data.....	108
Text Fonts.....	105	Backup.....	109
Linetypes, Hatch Patterns etc.....	106	<b>Supplement 2:</b>	
Model & Paperspace.....	106	<b>TurboCAD v14 differences from v15/16.....</b>	<b>110</b>
<b>26. TurboCAD for Publication Illustrations.....</b>	<b>107</b>	TurboCAD V14 & earlier:	
		Groups, Blocks, Symbols, Palettes & Symbol Libraries..	111
